

Ocean Sustainability Science Symposium

4 – 6 March 2015 / Kiel, Germany

The symposium will bring together scientists and practitioners concerned with sustainable ocean development. Early career scientists and established experts from a broad range of disciplines will exchange their views on: Ocean sustainability, ocean conservation, ocean resources, ocean governance and science communication for ocean sustainability.

The symposium offers plenary overview lectures in the morning, topical workshops in the afternoon and lively poster sessions. The number of participants is limited.

Registration fee is 100 €; for early career scientists the fee can be waived. Registration and more information about the symposium provided at: www.ocean-sustainability.org
